

Boost Your Sales. Accept Crypto Payments With MultiPay

How MultiPay Works in Your Business

- 1. Scan: Your customer pays his bill with crypto by scanning your QR Code
- 2. Pay: The crypto payment is credited to your MultiPay account
- 3. Convert: You convert the crypto payment to pesos by selling it using MultiPay

4. Withdraw: You choose how you want to receive your pesos: via bank transfer, or via your Maya or GCash wallet

The Problems MSMEs Know AII TOO Well

1.High Transaction Fees:

Traditional payment gateways eat into your profit margins with every transaction.

2.Complicated Merchant Applications:

Lengthy, outdated, and often biased application processes prevent small businesses from being approved

3. Currency Conversion Delays:

Dealing with foreign currencies often results in delays, losses in conversion rates, and unnecessary confusion.

4. Limited Payment Options:

Customers today want flexibility especially younger, digital-savvy buyers looking for crypto payment options.

The Solution:

Accept Crypto. Get Paid Instantly. Grow Your Business.

MultiPay is a breakthrough crypto payment solution built for Filipino MSMEs. Whether you're a cafe, a resort, hotel, online seller, freelancer, or a growing enterprise—MultiPay makes it easy, safe, and profitable to accept payments in Bitcoin, Ethereum, DOT, and more.

In 2025, progressive countries accept cryptocurrency payments. This includes Switzerland, Singapore, United Arab Emirates, Hong Kong, Canada, the United States, Australia, and Panama. This year, MultiPay will add the Philippines to the list of crypto-friendly countries!

How MultiPay Solves

Your Business Pain Points

1. Lower Fees, Higher Profits

Say goodbye to excessive transaction charges. MultiPay offers ultra-low fees compared to traditional card processors and remittance systems. Keep more of what you earn.

3. Real-Time Currency Conversion Options

Accept payments in crypto and convert to pesos instantly—or hold your crypto securely if you choose. No more losing money to bad exchange rates or slow settlements.

5. Safe, Secure, and Compliant

Built on the Xode Blockchain in the Polkadot ecosystem, MultiPay ensures your transactions are fully secure, traceable, and regulation-

2. No More Red Tape

Onboard in minutes—not weeks. Inclusive and simple sign-up process designed with Filipino MSMEs in mind. No complicated paperwork. No unnecessary checks. Just plug in and start accepting payments.

4. Multi-Crypto Support

Give your customers freedom of choice. Accept BTC-Bitcoin, RTH-Ethereum, DOT-Polkadot, and other popular cryptocurrencies with a single, unified interface.

6. Seamless, Frictionless, and **Painless Integration**

Whether you're running a point-ofsale (POS) terminal, an e-commerce website, or a simple mobile storefront -MultiPay fits right in. Simple APIs, mobile-friendly tools, and local support.

compliant. That's because Polkadot is the leading blockchain technology suited for enterprisegrade blockchain infrastructure.

Why MSMEs Love MultiPay

- Increase Sales Revenue by offering future-ready payment options aside from the usual cash, debit and credit cards
- Reach Global Customers who prefer crypto to cross-border payments
- Earn Customer Trust by adopting secure, decentralized payment where there's less trust, and more truth
- Frictionless Checkout Experience that your buyers and customers will appreciate
